Tere

Kas Eestis vaja mingit litsentsi / luba / registreeringut (nt kas see võib minna mingi koolituse alla, või siis finantstegevuse alla, või siis online gaming alla, vms) sellisel tegevusalal:

Estonian company offers through its platform a simulated market where users can learn how to operate in the trading world. As it is a simulation and does not operate in the real market, it is not affected by the securities market law. Estonian company offers trading courses to its users, while at the same time providing a platform, for users, to perform simulated trades. This platform is a simulation of the stock market and the consequences of the clients' operations are also simulated.

Kind Regards,
