Teema: State fee and modification

Hello,

I have few question about license and modification for virtual currency service provider FVT000398.

1. If the company already had share capital EUR 100 000 since 2020 and we do not have any changed in directors, officers, shareholders and/or contact persons, are we obliged to pay state fee of EUR 4000 ?
2. In mtr.mkm.ee portal, we have to submit changes to existing licence or submit as new application? In my opinion, to change existing application/licence.
3. What is expected to receive as a business plan for company that already works for almost 3 years?

Kind regards,
Linda Derkaca
