Teema: capital increase requirements

Hello,

I'd like to get some clarification on the requirements for capital increase. Because of the ar in Ukraine, and our ubo is from Ukraine, e have missed the introduction of new requirements to crypto license holders.

Could you please, send me more details on it and the deadlines. today I have got to know that it as 15th of June, but we may need a few more weeks to accumulate the necessary amount.

Also if we will not apply for an increase of capital, what will be with the company?

Regards, Nataly
