Teema: Issue uploading documents

Manused: WhatsApp Image 2022-07-04 at 1.12.29 PM.jpeg

To whom it may concern,

I am the director of a company we recently bought, and all documents where uploaded to the economic register (MTR). But we are not able to submit the application button because it's says that you need to check all fields but all fields are okay.

We are not able to click on "submit" button and there's written that the portal is failed to save the data.

Could you kindly inform us as how to submit the documents to you. The help would be highly appreciated

Sincerely

Kevin Grattagliano
