Teema: Questions relating blockchain based company in regards to the latest regulations

Tähtsus: Kõrgeim

Manused: image001.png; image002.jpg

Dear FIU team,

We were wondering if you consider international certifications like [ISO27001](#) or [CCSS](#) for Blockchain companies in Estonia (as one of our venture is located there).

We want to be best possible prepared for [MiCA](#) so therefore a statement from your side would be much appreciated.

With kind regards,

Alexandre Horvath
CISO/DPO
